

**WUKO Mini Bender**

Our curve specialists! For bending up to 90° especially on small radii (inner as well as outer radii).

WUKO Mini Bender 2020

Maximum bending height: 20 mm (0.78 in)

WUKO Mini Bender 2050

Maximum bending height: 50 mm (2 in). Can be used to make the profile for the 1-inch double-lock standing seam. Equipped with centimeter or inch scale.

**WUKO Uni Bender**

For bending and forming in sheet metal fabrication. Suitable for both straight and curved sheets. Equipped with four roller stops enabling easier handling and better guidance especially on outside radii. Includes a screw-on handle for easier working at maximum bending height.

WUKO Uni Bender 2204

Bending height: 5–200 mm (0.2–8 in)

WUKO Uni Bender 2354

Bending height: 5–350 mm (0.2–14 in)

**WUKO Duo Bender**

Equipped with a second pair of bending rolls and a handle for quick and easy bending of long, straight sheet metal strips.

WUKO Duo Bender 3200

Bending height: 5–200 mm (0.2–8 in)

WUKO Duo Bender 3350

Bending height: 5–350 mm (0.2–14 in)

WUKO Duo Bender 3200/3350 Plus

consisting of

- Duo Bender 3200/3350
- Super Clamping Handle to optimize the exertion of pressure, easily and quickly attached to the upper shafts of the WUKO Duo Bender
- Quick Click Supporting Rail to prevent any pressure marks on the material, just click it on the lower shafts of the WUKO Duo Bender
- Carrying case

Clamping handle and supporting rail also available separately for upgrading!

Maximum bending capacity for all Benders
0.8 mm (0.031 in)

Novelties Come from WUKO!

WUKO

WUKO Uber Bender

Equipped with an angled bending disc for bending up to 100°

- avoid potential scratches to the underlying surface
- demands less space when forming male and female profiles
- offers wider application than other tools

The ideal tool for delicate materials, spring back materials and bending along longitudinal beadings.

WUKO Uber Bender 6200

Bending height: 5–200 mm (0.2–8 in)

WUKO Uber Bender 6350

Bending height: 5–350 mm (0.2–14 in)

WUKO Uber Bender Duo

The double version for long panels!

Equipped with a second pair of angled bending discs and a handle for quick and easy bending of long, straight panels. Delivered in a carrying case.

WUKO Uber Bender Duo 7200

Bending height: 5–200 mm (0.2–8 in)

WUKO Uber Bender Duo 7350

Bending height: 5–350 mm (0.2–14 in)

WUKO Hem Bender 8200

From 0 to 180° in a single tool!

Equipped with two pairs of bending discs and a handle.

- Quick and easy bending of long, straight sheet metal panels up to a height of 200 mm (8 in)
- and for creating hems [up to 14 mm (½ in)]
- Demands less space and offers wide range of applications

Delivered in a carrying case.

WUKO Combo Bender 5000

Handy tool for beading, stiffening and offsetting of sheet metal.

- Four roller stops for easier guidance on straight sheet metal strips
- Quick and easy removal of two roller stops for working on curves
- Adjustable throat depth from 0 to 65 mm (2.5 in)
- Lower shaft radially adjustable (forming pressure increase)
- Roll sets made of hardened steel and equipped with long-life bearings
- Interchangeable roll sets (special roll sets on demand)

**WUKO Mini Disc-O-Bender 4010**

Starts at 90° and bends up to 180°. Creates hem also on inner and outer radii. The tool needs free space at the side for setting on and off. It's the ideal supplement to the WUKO Mini and WUKO Uni Bender.

Bending height: 8–23 mm (0.3–0.9 in)

**WUKO Disc-O-Bender Twist 4040**

Starts at 90° and bends up to 180°. Creates hem also on inner and outer radii.

- no free space required at the side for setting the tool on and off
 - just twist the roller stop by means of the locking bolt
 - place the tool on the right angle bend
 - twist the roller stop back and start bending
- increased bending height compared to Mini Disc-O-Bender 4010

Bending height: 8–32 mm (0.3–1.25 in)

**WUKO Micro Disc-O-Bender 4050**

Starts at 90° and bends up to 180°. Creates hem also on inner and outer radii.

- Equipped with two bending discs with small diameter, therefore less space required.
- The ideal tool for places with lack of space.
- Easy and effortless bending by two bending discs.

Bending height: 5–12 mm (0.2–0.5 in)

**WUKO Disc-O-Bender 4000**

Starts at 90° and bends up to 180° (hem).

Designed for bending long, straight sheet metal strips, very easy to handle and thus the ideal supplement to the WUKO Duo Bender or Uber Bender Duo.

Bending height: 8–40 mm (0.3–1.6 in)

Maximum bending capacity for all Disc-O-Benders
0.8 mm (0.031 in)

The Best Choice for the Site – Let's WUKO!

WUKO

WUKO Bender Set 2050/4010

includes the WUKO Mini Bender 2050, the WUKO Mini Disc-O-Bender 4010 and a carrying case!

With the "Minis" to the maximum result! Make a hem (also on small radii) in two steps.

WUKO Bender Set 2204/4040

includes the WUKO Uni Bender 2204, the WUKO Disc-O-Bender 4040 Twist and a carrying case!

The ideal combination for bending/forming straight and curved pieces up to 90° and for bending from 90° up to 180°.

WUKO Bender Set 2204/3200

includes the WUKO Uni Bender 2204, the WUKO Duo Bender 3200 and a carrying case!

For easy bending/forming curved as well as long, straight sheet metal pieces up to 90°.

WUKO Bender Set 6200/7200

includes the WUKO Uber Bender 6200, the WUKO Uber Bender Duo 7200 and a carrying case!

For easy bending/forming curved as well as long, straight sheet metal pieces up to 100°. The best choice for delicate or spring back materials avoiding potential scratches to the underlying surface. Angled bending discs demand less space and offer wider application.

WUKO Bender Set 3200/4000

includes the WUKO Duo Bender 3200, the WUKO Disc-O-Bender 4000 and a carrying case!

This couple enables quick, easy and clean bending/forming of long and straight sheet metal strips. Go to 90° and continue to 180°.

WUKO Bender Anniversary Set 2050/2204/4040

includes the WUKO Mini Bender 2050, the WUKO Uni Bender 2204, the WUKO Disc-O-Bender Twist 4040, our anniversary folding ruler and a carrying case.

Great for use on job sites!

Further Bender Sets on request!
